WHAT IS **ANNOTO?**

Annoto is a video collaboration tool that helps make learning more social. With in-video interaction and analytics, Annoto can help you involve students in course videos and provide insights on their participation. The tool enhances engagement by allowing students to contribute, share, and learn together.

WHY USE IT?

Students can **add time-tagged annotations** to video content.

Instructors can **access analytics** to determine how students interact with video content and each other.

Instructors can **use video content** for assignments, skills assessment, feedback, and peer review.

Annoto **integrates seamlessly with Kaltura** and other video platforms.

KEEP IN MIND

If you need assistance with Annoto, our technical support team can help. Reach them at **canvas@fsu.edu** or **850-644-8004**. For general information, contact **Dewel Lindsey** at **dlindsey@campus.fsu.edu**.

- Before using Annoto, you will need to enable the tool in Canvas. Read our **support article** for easy step-by-step instructions.

- Numerous resources are available to help you with Annoto, including **user guides**, **video tutorials**, and the **Annoto website**.

For more information, visit the **Annoto** support article.
