This message to all faculty, staff, and students has been approved by Dr. Sally McRorie, Provost and Executive Vice President for Academic Affairs.

**FSU Testing Center Closed Until April 6, 2020**

To protect the welfare of our students, employees, and community during the COVID-19 emergency, the **FSU Testing Center will be closed until at least April 6, 2020**. In the meantime, we will continue to monitor the advice of local and federal health officials and work closely with our university administration before reopening.

- All appointments scheduled through April 3, 2020, have been canceled.
- At this time, we are not rescheduling appointments.
- We are in the process of coordinating alternatives to in-person proctoring (including alternative strategies and **remote proctoring for all local and remote students**) and will communicate details as soon as possible.

**Instructors:** During the transition, we encourage you to explore alternative assessment strategies and visit our odl.fsu.edu/testing page for updates.

**Students:** Please watch for proctored testing information from your instructor(s) and visit our distance.fsu.edu/testing page for updates.
